

LEXINGTON PARKWAY Open House

The City of Saint Paul Department of Public Works is hosting an informational open house on Tuesday, April 28th to present proposed changes to Lexington Parkway from Randolph Avenue to Montreal Avenue/ West 7th Street. The proposed design would be implemented with Ramsey County's planned street resurfacing scheduled for the summer of 2015.

What is being Proposed?

The City of Saint Paul, in conjunction with Ramsey County, is proposing to implement bike lanes on Lexington Parkway between Randolph Avenue and Montreal Avenue. This segment of Lexington is identified in the Saint Paul Bicycle Plan, and provides important connections to nearby bike facilities on Jefferson and Montreal Avenues. The City's Comprehensive Plan promotes the development of streets for all users of the transportation system, and the proposed changes will make Lexington Parkway a safer and more accommodating street for all.

Changes to On-Street Parking

To implement dedicated bike lanes, all existing parking on the west side of Lexington Parkway between Nettleton and Albion Avenues must be removed. Parking must also be removed on the east side of Lexington between Albion and Montreal Avenues. Existing parking on the east side of Lexington between Nettleton and Albion Avenues will be maintained.

At the Open House

- Preliminary layouts will be available for viewing.
- City of Saint Paul and Ramsey County staff will be available to answer questions and address concerns about the proposed plan.
- Comment forms will be available to provide feedback on the proposed plan.

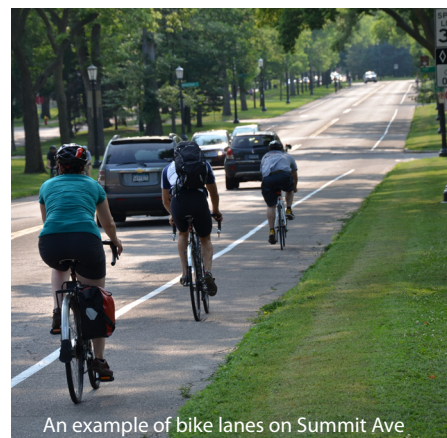

After the Open House

- A question asking for feedback on the plan for bike lanes on Lexington will be posted to Open Saint Paul. Link: www.stpaul.gov/open
- The proposed changes to Lexington will be presented to City Council. **This will be a public hearing.** We will mail an additional notification detailing the time and date of the public hearing once details are finalized.
